ZAYVORA MATAB OS * CLINICAL PHARMACOPOEIA

MASTER CLINICAL FORMULARY & CODIFIED PROTOCOLS

The Definitive 21-Protocol Manual of Classical Unani Compounding, Posology & Safety Standards

March 2026 Edition | Author & Clinical Architect: Dr. Irfan Ashraf | Ayush & FSSAI Compliant

THE 4-TIER CLASSICAL COMPOUNDING CANON (NUSKHA NAWISI USOOL)

Tier 1: Mughaddi (10-25%)
Sustenance & Visceral Support

Tier 2: Asl-e-Dawa (40-60%)
Primary Active Pharmacodynamics

Tier 3: Muslih (15-25%)
Temperament Balancer & Shield

Tier 4: Muhawwil (5-10%)
Bioavailability & Catalyst

CLINICAL PRACTICE LAWS:

* 3-Phase Afaal Cascade: Every chronic condition must traverse Phase 1: Tanqiya (Detox), Phase 2: Tahleel, Phase 3: Taqwiyat.
* Single-Batch Calibration: All Matab Safoof recipes are calibrated to exact 500g yields for uniform active dosing.
* Zero Adulteration: Prohibited are synthetic PDE5 inhibitors, unpurified Kushtas, synthetic steroids, or unauthorized stimulants.

MASTER DIRECTORY OF CODIFIED PROTOCOLS (P-01 TO P-21)

Code	Protocol Name & Indication	Organ Axis	Primary Safoof (500g Batch)	Kit / Page

P-01 Type 2 Diabetes Protocol

Category: METABOLIC | ICD-11: | Humor / Mizaj:

Organ-Axis: Jigar-Banas PRIMARY | Meda-Hazm SECONDARY

CLASSICAL MATAB SAFOOF: DiabEase / Hepato-Metabolic 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Arq Kasni (50ml) or Lukewarm Water | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Tukhm Jamun (Syzygium cumini)	Asl-e-Dawa	100.0 g	20.0%
2	Gurmar Booti (Gymnema sylvestre)	Asl-e-Dawa	100.0 g	20.0%
3	Karela Khushk (Momordica charantia)	Asl-e-Dawa	80.0 g	16.0%
4	Gilo / Giloy (Tinospora cordifolia)	Muslih	60.0 g	12.0%
5	Chiraita Shirin (Swertia chirata)	Muslih	40.0 g	8.0%
6	Tukhm Methi (Trigonella foenum-graecum)	Asl-e-Dawa	40.0 g	8.0%
7	Zeera Safaid (Cuminum cyminum)	Muslih	30.0 g	6.0%
8	Filfil Siyah (Piper nigrum)	Muhawwil	10.0 g	2.0%
9	Kushta Baiza Murgh	Asl-e-Dawa	10.0 g	2.0%
10	Kushta Marwareed	Asl-e-Dawa	5.0 g	1.0%
11	Base / Misri Safaid	Mughaddi	25.0 g	5.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-01 - DIABETES CONTROL KIT

Target Patient MRP: Rs. 3,800 - Rs. 5,500 | Regulatory Track: AYUSH

Standardized Formulations: DiabEase + HepaClear + MindBalance + GutEase-IBS + Sugar Care

Stack Architecture: Core: DiabEase, HepaClear | Support: MindBalance, GutEase-IBS

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: TM-01 / FK-01 (Hepato-Metabolic & Insulin Reset)**

* Recommended: Barley soup (Kashk-e-Jau), bitter gourds, fenugreek water, walnuts 30g, steamed green leafy vegetables.

* Strict Abstinence: Zero refined sugars, high-fructose juices, bakery items, deep-fried fast food, chilled refrigerated water.

** Lifestyle Mandate: 16:8 Intermittent Fasting window (12 PM - 8 PM), post-meal 15-minute ambulation, 8,000 steps daily.*

* Hydration Vehicle: Warm boiled water infused with Zeera Siyah & Saunf (1.5 - 2.5 Litres daily).

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: NEVER replace prescribed antidiabetics.

! CONTRAINDICATION: Monitor for hypoglycaemia especially if on sulphonylureas or insulin.

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): FBS (2-weekly Phase 2)

Phase 1 Check (Day 30): HbA1c (90 days)

Phase 2 Check (Day 90): PP Glucose (90 days)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-02 Obesity & Metabolic Syndrome Protocol

Category: METABOLIC | ICD-11: | Humor / Mizaj:

Organ-Axis: Jigar-Dam PRIMARY | Meda-Amaa SECONDARY

CLASSICAL MATAB SAFOOF: MetaboBurn-M / Obesity & Lipolysis 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Lukewarm Water with 1 tsp Honey | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Zanjabeel (Zingiber officinale)	Asl-e-Dawa	70.0 g	14.0%
2	Filfil Siyah (Piper nigrum)	Muhawwil	30.0 g	6.0%
3	Filfil Daraz (Piper longum)	Asl-e-Dawa	40.0 g	8.0%
4	Zeera Siyah (Carum carvi)	Asl-e-Dawa	80.0 g	16.0%
5	Badiyan / Saunf (Foeniculum vulgare)	Muslih	70.0 g	14.0%
6	Post Halela Zard (Terminalia chebula)	Asl-e-Dawa	60.0 g	12.0%
7	Post Balela (Terminalia bellerica)	Asl-e-Dawa	50.0 g	10.0%
8	Amla Khushk (Phyllanthus emblica)	Asl-e-Dawa	50.0 g	10.0%
9	Luk Maghsool (Coccus lacca)	Asl-e-Dawa	30.0 g	6.0%
10	Namak Siyah	Muslih	20.0 g	4.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-02 - METABOLIC BURN KIT

Target Patient MRP: Rs. 4,000 - Rs. 6,000 | Regulatory Track: FSSAI+AYUSH

Standardized Formulations: MetaboBurn-M + HepaClear + LipidClear + GutEase-IBS + MindBalance

Stack Architecture: Core: MetaboBurn-M, HepaClear, LipidClear | Support: GutEase-IBS, MindBa...

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: TM-01 / FK-01 (Hepato-Metabolic & Insulin Reset)**

* Recommended: Barley soup (Kashk-e-Jau), bitter gourds, fenugreek water, walnuts 30g, steamed green leafy vegetables.

* Strict Abstinence: Zero refined sugars, high-fructose juices, bakery items, deep-fried fast food, chilled refrigerated water.

** Lifestyle Mandate: 16:8 Intermittent Fasting window (12 PM - 8 PM), post-meal 15-minute ambulation, 8,000 steps daily.*

* Hydration Vehicle: Warm boiled water infused with Zeera Siyah & Saunf (1.5 - 2.5 Litres daily).

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: MetaboBurn-M is adjunct to caloric restriction -- not standalone.

! CONTRAINDICATION: Isabgol: 250ml water per dose mandatory.

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): Weight + waist (monthly)

Phase 1 Check (Day 30): Fasting lipid panel (45-day)

Phase 2 Check (Day 90): FBS + HOMA-IR (0, 90)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-03 Dyslipidaemia & Lipid Management Protocol

Category: METABOLIC | ICD-11: | Humor / Mizaj:

Organ-Axis: Jigar-Dam PRIMARY

CLASSICAL MATAB SAFOOF: LipidClear / Athero-Hepatic 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Lukewarm Water | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Guggul Shuddha (Commiphora mukul)	Asl-e-Dawa	100.0 g	20.0%
2	Arjuna Chaal (Terminalia arjuna)	Asl-e-Dawa	100.0 g	20.0%
3	Lehsun Khushk (Allium sativum)	Asl-e-Dawa	60.0 g	12.0%
4	Zeera Siyah (Carum carvi)	Muslih	60.0 g	12.0%
5	Post Halela Siyah	Asl-e-Dawa	50.0 g	10.0%
6	Chobchini (Smilax china)	Asl-e-Dawa	50.0 g	10.0%
7	Zanjabeel (Zingiber officinale)	Asl-e-Dawa	40.0 g	8.0%
8	Filfil Siyah	Asl-e-Dawa	20.0 g	4.0%
9	Tabasheer	Muslih	20.0 g	4.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-03 - LIPID MANAGEMENT KIT

Target Patient MRP: Rs. 3,500 - Rs. 5,000 | Regulatory Track: AYUSH

Standardized Formulations: LipidClear + HepaClear + CardioGuard + DiabEase + MetaboBurn-M

Stack Architecture: Core: LipidClear, HepaClear | Support: CardioGuard, DiabEase

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: TM-01 / FK-01 (Hepato-Metabolic & Insulin Reset)**

* Recommended: Barley soup (Kashk-e-Jau), bitter gourds, fenugreek water, walnuts 30g, steamed green leafy vegetables.

* Strict Abstinence: Zero refined sugars, high-fructose juices, bakery items, deep-fried fast food, chilled refrigerated water.

** Lifestyle Mandate: 16:8 Intermittent Fasting window (12 PM - 8 PM), post-meal 15-minute ambulation, 8,000 steps daily.*

* Hydration Vehicle: Warm boiled water infused with Zeera Siyah & Saunf (1.5 - 2.5 Litres daily).

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: LipidClear: 250ml water per dose mandatory (Isabgol obstruction risk).

! CONTRAINDICATION: Monitor TSH -- Guggul activates thyroid receptor.

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): Fasting lipid panel (0, 45, 90)

Phase 1 Check (Day 30): LFT (0, 90)

Phase 2 Check (Day 90): TSH (baseline and 90 days)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-04 Hypertension Management Protocol

Category: CARDIO | ICD-11: | Humor / Mizaj:

Organ-Axis: Qalb-Uroq-Dimagh-Kulya

CLASSICAL MATAB SAFOOF: HyperCalm / Neuro-Vascular 500g Safoof (Rx Schedule E1)

Single Dose: 5g - 6g BID | Default Vehicle: Arq Gaozaban (50ml) or Plain Water | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Asrol / Choti Chand (Rauwolfia serpentina)	Asl-e-Dawa	60.0 g	12.0%
2	Ustukhuddus (Lavandula stoechas)	Asl-e-Dawa	80.0 g	16.0%
3	Gaozaban Phool (Borago officinalis)	Asl-e-Dawa	70.0 g	14.0%
4	Sandal Safaid (Santalum album)	Asl-e-Dawa	50.0 g	10.0%
5	Kishneez Khushk / Dhania	Muslih	60.0 g	12.0%
6	Badiyan / Saunf	Muslih	50.0 g	10.0%
7	Tabasheer	Asl-e-Dawa	40.0 g	8.0%
8	Filfil Siyah	Asl-e-Dawa	15.0 g	3.0%
9	Kushta Marwareed	Asl-e-Dawa	15.0 g	3.0%
10	Misri Safaid	Asl-e-Dawa	60.0 g	12.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-04 - BLOOD PRESSURE KIT

Target Patient MRP: Rs. 4,500 - Rs. 7,000 | Regulatory Track: AYUSH (Rx)

Standardized Formulations: HyperCalm + CardioGuard + MindBalance + LipidClear + Sleep+Stress

Stack Architecture: Core: HyperCalm, CardioGuard | Support: MindBalance, LipidClear

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: CD-01 (Neuro-Vascular & Arterial Endothelium)**

* Recommended: Arjuna decocotion with cow milk, garlic cloves soaked in honey, beetroot juice (nitric oxide), pomegranate.

* Strict Abstinence: High sodium foods (>2.0g/day salt), pickles, red meat, trans-fat rich confectionaries, stimulants.

** Autonomic Nervous System: 4-7-8 Diaphragmatic vagal breathing 15 minutes twice daily; eliminate evening caffeine.*

* Blood Pressure Rule: Daily morning seated BP logging; avoid sudden discontinuation of active vascular tonics.

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: HyperCalm is PRESCRIPTION ONLY (Schedule E1 Sarpagandha).

! CONTRAINDICATION: NEVER stop allopathic BP medications.

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): BP home monitoring daily

Phase 1 Check (Day 30): ECG (0, 90 days)

Phase 2 Check (Day 90): RFTs (0, 90)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-05 Cardiac Support & IHD Protocol

Category: CARDIO | ICD-11: | Humor / Mizaj:

Organ-Axis: Qalb-Dam-Uroq-Azam

CLASSICAL MATAB SAFOOF: CardioGuard / Cardiac Vigor 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Arq Gaozaban (60ml) | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Post Beekh Arjuna (Terminalia arjuna)	Asl-e-Dawa	120.0 g	24.0%
2	Gaozaban Barge & Gul (Borago officinalis)	Asl-e-Dawa	70.0 g	14.0%
3	Gulab Phool (Rosa damascena)	Asl-e-Dawa	60.0 g	12.0%
4	Sandal Safaid (Santalum album)	Asl-e-Dawa	40.0 g	8.0%
5	Badranjboya (Melissa officinalis)	Asl-e-Dawa	50.0 g	10.0%
6	Asgandh Nagori	Asl-e-Dawa	50.0 g	10.0%
7	Zanjabeel (Zingiber officinale)	Asl-e-Dawa	30.0 g	6.0%
8	Zafran (Crocus sativus)	Muhawwil	10.0 g	2.0%
9	Kushta Aqeeq	Asl-e-Dawa	10.0 g	2.0%
10	Warq Tila (Gold Foil)	Asl-e-Dawa	5.0 g	1.0%
11	Misri Safaid	Asl-e-Dawa	55.0 g	11.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-05 - CARDIAC PROTECTION KIT

Target Patient MRP: Rs. 5,500 - Rs. 8,000 | Regulatory Track: AYUSH

Standardized Formulations: CardioGuard + LipidClear + HyperCalm + MindBalance + HepaClear

Stack Architecture: Core: CardioGuard, LipidClear | Support: HyperCalm, MindBalance

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: CD-01 (Neuro-Vascular & Arterial Endothelium)**

* Recommended: Arjuna decocotion with cow milk, garlic cloves soaked in honey, beetroot juice (nitric oxide), pomegranate.

* Strict Abstinence: High sodium foods (>2.0g/day salt), pickles, red meat, trans-fat rich confectionaries, stimulants.

** Autonomic Nervous System: 4-7-8 Diaphragmatic vagal breathing 15 minutes twice daily; eliminate evening caffeine.*

* Blood Pressure Rule: Daily morning seated BP logging; avoid sudden discontinuation of active vascular tonics.

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: CONTINUE ALL CARDIAC MEDICATIONS -- never substitute.

! CONTRAINDICATION: If on warfarin: INR monitoring (Nattokinase mild fibrinolytic synergy).

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): ECG (0, 90 days)

Phase 1 Check (Day 30): ECHO (annual)

Phase 2 Check (Day 90): Lipid panel (0, 45, 90)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-06 Stress & Anxiety Protocol

Category: NEURO | ICD-11: | Humor / Mizaj:

Organ-Axis: Dimagh-Qalb PRIMARY | Jigar SECONDARY

CLASSICAL MATAB SAFOOF: MindBalance / Neuro-Psychiatric 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Warm Milk or Arq Gaozaban | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Brahmi Booti (Bacopa monnieri)	Asl-e-Dawa	90.0 g	18.0%
2	Shankhpushpi (Convolvulus pluricaulis)	Asl-e-Dawa	90.0 g	18.0%
3	Ustukhuddus (Lavandula stoechas)	Asl-e-Dawa	70.0 g	14.0%
4	Asgandh Nagori (Withania somnifera)	Asl-e-Dawa	70.0 g	14.0%
5	Gaozaban Gul (Borago officinalis)	Asl-e-Dawa	50.0 g	10.0%
6	Badranjboya (Melissa officinalis)	Asl-e-Dawa	40.0 g	8.0%
7	Jadwar Khatai (Delphinium denudatum)	Asl-e-Dawa	20.0 g	4.0%
8	Tabasheer	Muslih	30.0 g	6.0%
9	Zafran	Asl-e-Dawa	5.0 g	1.0%
10	Misri Safaid	Asl-e-Dawa	35.0 g	7.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-06 - STRESS-ANXIETY KIT

Target Patient MRP: Rs. 2,500 - Rs. 3,800 | Regulatory Track: FSSAI+AYUSH

Standardized Formulations: MindBalance + Sleep+Stress + HepaClear

Stack Architecture: Core: MindBalance, Sleep+Stress | Support: HepaClear

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: NE-01 (Neuro-Circadian & Sleep Recovery)**

* Recommended: Badam Roghan (almond oil) nasal drops (2 drops each nostril at bedtime), warm milk with Zafran, chamomile.

* Strict Abstinence: Zero caffeine after 12:00 PM noon, zero digital screens after 9:00 PM (digital sunset).

** Circadian Entrainment: Natural sunlight exposure within 10 minutes of waking for 15 minutes to reset SCN master clock.*

* Herbal Oil Application: Gentle scalp massage with Roghan Labub-e-Saba or Roghan Kahu 30 mins before sleep.

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: Do not replace prescribed psychiatric medications.

! CONTRAINDICATION: Do not abruptly stop after 3+ months (gradual taper).

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): PHQ-9 + GAD-7 monthly

Phase 1 Check (Day 30): Cortisol AM (0, 90 days)

Phase 2 Check (Day 90): TSH (anxiety mimics thyroid)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-07 Insomnia & Sleep Disorder Protocol

Category: NEURO | ICD-11: | Humor / Mizaj:

Organ-Axis: Dimagh-Qalb | Aasab

CLASSICAL MATAB SAFOOF: Sleep+Stress / Insomnia & Circadian 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Warm Milk or Arq Gaozaban at Bedtime | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Khashkhash Safaid (Papaver somniferum semen)	Asl-e-Dawa	100.0 g	20.0%

* Strict Abstinence: Zero caffeine after 12:00 PM noon, zero digital screens after 9:00 PM (digital sunset).

** Circadian Entrainment: Natural sunlight exposure within 10 minutes of waking for 15 minutes to reset SCN master clock.*

* Herbal Oil Application: Gentle scalp massage with Roghan Labub-e-Saba or Roghan Kahu 30 mins before sleep.

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: Do not replace prescribed sleep medications immediately -- gradual transition.

! CONTRAINDICATION: Rule out sleep apnoea (PSG if snoring + daytime sleepiness).

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): Sleep diary (2 weeks baseline)

Phase 1 Check (Day 30): Cortisol AM (if >20mcg/dL = HPA disruption)

Phase 2 Check (Day 90): TSH (hypothyroid = insomnia)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-08 Asthma & Allergic Respiratory Protocol

Category: RESPIRATORY | ICD-11: | Humor / Mizaj:

Organ-Axis: Riya-Sadr PRIMARY | Tabiyat SECONDARY

CLASSICAL MATAB SAFOOF: LungEase / Asthma & Pulmonary Clearance 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Lukewarm Water or Joshanda Banafsha | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Asl-us-Soos / Mulethi (Glycyrrhiza glabra)	Asl-e-Dawa	90.0 g	18.0%
2	Sapistan (Cordia latifolia)	Asl-e-Dawa	80.0 g	16.0%
3	Unnab (Zizyphus vulgaris)	Asl-e-Dawa	70.0 g	14.0%
4	Behidana (Cydonia oblonga)	Asl-e-Dawa	60.0 g	12.0%
5	Gul-e-Banafsha (Viola odorata)	Asl-e-Dawa	50.0 g	10.0%
6	Zufa Khushk (Hyssopus officinalis)	Asl-e-Dawa	40.0 g	8.0%
7	Filfil Daraz (Piper longum)	Asl-e-Dawa	30.0 g	6.0%
8	Tabasheer	Asl-e-Dawa	30.0 g	6.0%
9	Qand Safaid	Asl-e-Dawa	50.0 g	10.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-08 - RESPIRATORY CARE KIT

Target Patient MRP: Rs. 2,800 - Rs. 4,000 | Regulatory Track: FSSAI

Standardized Formulations: LungEase + Immunity + MindBalance

Stack Architecture: Core: LungEase, Immunity | Support: MindBalance

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: RS-01 (Pulmonary Mucolytic & Broncho-Protection)**

* Recommended: Joshanda of Mulethi, Banafsha & Sapistan; warm ginger-tulsi tea, black pepper with raw honey.

* Strict Abstinence: Ice-cold drinks, citrus curd at night, deep-fried snacks, exposure to chemical fumes and tobacco smoke.

** Inhalation Therapy: Steam inhalation with Roghan Banafsha or Eucalyptus oil twice daily during acute bronchial congestion.*

* Breathing Discipline: Pranayama / Anulom-Vilom 15 minutes morning in fresh unpolluted air.

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: NEVER stop prescribed inhalers (bronchodilators are life-saving).

! CONTRAINDICATION: LungEase is ADJUNCT to inhalers -- not replacement.

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): Spirometry FEV1/FVC (0, 90 days)

Phase 1 Check (Day 30): IgE total (0, 90)

Phase 2 Check (Day 90): Eosinophil count

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-09 Joint Pain & Arthritis Protocol

Category: JOINTS | ICD-11: | Humor / Mizaj:

Organ-Axis: Mafasil-Dam PRIMARY

CLASSICAL MATAB SAFOOF: JointFree / Arthritic & Anti-Inflammatory 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Lukewarm Water or Arq Mako | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Suranjan Shirin (Colchicum autumnale)	Asl-e-Dawa	90.0 g	18.0%
2	Asgandh Nagori (Withania somnifera)	Asl-e-Dawa	80.0 g	16.0%
3	Kundur / Shallaki (Boswellia serrata)	Asl-e-Dawa	70.0 g	14.0%
4	Chobchini (Smilax china)	Asl-e-Dawa	60.0 g	12.0%
5	Zanjabeel (Zingiber officinale)	Asl-e-Dawa	50.0 g	10.0%
6	Badiyan / Saunf	Muslih	50.0 g	10.0%
7	Post Halela Zard	Asl-e-Dawa	40.0 g	8.0%
8	Filfil Siyah	Asl-e-Dawa	20.0 g	4.0%
9	Misri Safaid	Asl-e-Dawa	40.0 g	8.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-09 - JOINT CARE KIT

Target Patient MRP: Rs. 3,000 - Rs. 4,500 | Regulatory Track: FSSAI

Standardized Formulations: JointFree + HepaClear + Immunity + UroClear

Stack Architecture: Core: JointFree | Support: HepaClear, Immunity, UroClear

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: JT-01 (Anti-Inflammatory & Synovial Integrity)**

* Recommended: Golden turmeric milk with black pepper, bone broth, soaked fenugreek seeds, castor oil 5ml at bedtime.

* Strict Abstinence: Nightshades (tomatoes, eggplants), sour fermented curd, excessive red lentils, purine-rich organs.

** External Therapy: Warm application of Roghan Suranjan or Roghan Babuna to affected joints followed by gentle flannel wrap.*

* Low Impact Movement: Daily non-weight bearing range-of-motion mobility exercises to stimulate synovial fluid synthesis.

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: JointFree with food (Curcumin+UC-II absorption).

! CONTRAINDICATION: AKBA: Boswellia most adulterated botanical -- verify HPLC certificate.

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): CRP + ESR (0, 45, 90)

Phase 1 Check (Day 30): Uric acid (gout)

Phase 2 Check (Day 90): RF + anti-CCP (RA)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-10 Erectile Dysfunction Protocol

Category: MALE | ICD-11: | Humor / Mizaj:

Organ-Axis: Khusyatain-Uroq-Aasab-Dimagh

CLASSICAL MATAB SAFOOF: VigorX-ED / Andrological Vigor 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: 250ml Warm Cow Milk (morning empty stomach) | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %

! SAFETY RED LINE: Active Candida or BV: complete prescribed course first; LeucoClear is adjunct.

! CONTRAINDICATION: Refrigerated storage mandatory for probiotic viability.

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): HVS culture+sensitivity (0, 90)

Phase 1 Check (Day 30): Vaginal pH (weekly self-monitoring)

Phase 2 Check (Day 90): Haemoglobin+ferritin

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-16 Menstrual Health Protocol (Dysmenorrhoea / Menorrhagia)

Category: FEMALE | ICD-11: | Humor / Mizaj:

Organ-Axis: Reham-Dam PRIMARY

CLASSICAL MATAB SAFOOF: UterTone / Dysmenorrhoea & Emmenagogue 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Arq Badiyan or Warm Water (During Menses) | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Abhal / Hubb-ul-Ar'ar (Juniperus communis)	Asl-e-Dawa	90.0 g	18.0%
2	Post Beekh Kasni (Cichorium intybus)	Asl-e-Dawa	70.0 g	14.0%
3	Badiyan / Saunf (Foeniculum vulgare)	Asl-e-Dawa	70.0 g	14.0%
4	Tukhm Gajar (Daucus carota semen)	Asl-e-Dawa	60.0 g	12.0%
5	Hulba / Tukhm Methi	Asl-e-Dawa	60.0 g	12.0%
6	Asgandh Nagori	Asl-e-Dawa	50.0 g	10.0%
7	Filfil Siyah	Asl-e-Dawa	20.0 g	4.0%
8	Zafran (Crocus sativus)	Asl-e-Dawa	10.0 g	2.0%
9	Qand Safaid	Asl-e-Dawa	70.0 g	14.0%
	TOTAL COMPOUND BATCH YIELD (STRICT 500g SAFFE):		**500.0 g**	**100.0%**

3-PHASE CLINICAL AFAAL CASCADE (SYSTEMIC RESOLUTION TIMELINE)

Phase 1: Tanqiya (30 Days)
Focus: Clearance & Detox
Target: Evacuation of morbid matter

Phase 2: Tahleel (60 Days)
Focus: Resolution & Functional Reset
Target: Enzymatic normalization

Phase 3: Taqwiyat (90 Days)
Focus: Consolidation & Relapse Guard
Target: Sustained organ restitution

TRACK 2 STANDARDIZED GMP PRODUCTS & CODIFIED BUNDLE KIT

Matching Kit: K-16 - CYCLE CARE KIT

Target Patient MRP: Rs. 3,200 - Rs. 4,800 | Regulatory Track: FSSAI

Standardized Formulations: UterTone + FemCare-L + MindBalance + HepaClear + Women Daily

Stack Architecture: Core: UterTone, FemCare-L | Support: MindBalance, HepaClear

DIETARY PRESCRIPTION (ILAJ BIL GHIZA) & PARHEZ COMPENDIUM

*** Parhez Code: MF-01 (Male Fertility & Spermatogenesis Reset)**

* Recommended: Raw walnuts 30g daily, wild oily fish, black raisins soaked in milk, pomegranate juice, pumpkin seeds.

* Strict Abstinence: Zero alcohol, zero nicotine/vaping, zero saunas/hot tubs, zero laptop directly on lap.

** Thermal Regulation: 100% loose breathable cotton boxer shorts; cold water splash to scrotum twice daily.*

* Circadian Rhythm: Sleep strictly 10:00 PM - 6:00 AM (peak nocturnal melatonin scavenges sperm ROS).

CLINICAL SAFETY FIREWALL, RED FLAGS & BIOMARKER SURVEILLANCE

! SAFETY RED LINE: PHYSICIAN MONITORING MANDATORY for UterTone.

! CONTRAINDICATION: Not for use in pregnancy (Zafran emmenagogue in UterTone).

BIOMARKER SURVEILLANCE & RE-EVALUATION MILESTONES:

Baseline Screen (Day 0): Serum progesterone (day 21)

Phase 1 Check (Day 30): Prolactin

Phase 2 Check (Day 90): FSH+LH (day 2-3)

Emergency Referral Criteria: *Acute clinical deterioration, organ distress, or critical vitals e...*

P-17 Menopause Management Protocol

Category: FEMALE | ICD-11: | Humor / Mizaj:

Organ-Axis: Mabaysim-Qalb-Azam

CLASSICAL MATAB SAFOOF: MenoPease / Menopause & Vasomotor 500g Safoof

Single Dose: 5g - 6g BID | Default Vehicle: Arq Gaozaban or Lukewarm Milk | Timing: 30m Before Meals

#	Ingredient & Botanical Identification	Classical Compounding Tier	Weight (g)	Share %
1	Shatavari (Asparagus racemosus)	Asl-e-Dawa	100.0 g	20.0%
2	Asgandh Nagori	Asl-e-Dawa	80.0 g	16.0%
3	Gaozaban Gul	Asl-e-Dawa	60.0 g	12.0%
4	Sandal Safaid	Asl-e-Dawa	50.0 g	10.0%

PHARMACOPOEIAL QUALITY STANDARDS & SAFETY FIREWALL

Good Compounding Practices (GCP), Herb-Drug Interaction Matrix & Official Directorate Attestation

1. GOOD COMPOUNDING PRACTICES FOR MATAB SAFOOF (PHARMACOPOEIAL RULES)

* Sieve Calibration: All botanical roots, barks, and seeds must be pulverised and passed throug...
* Moisture Content Standard: Total residual moisture in prepared Safoof batches must never exce...
* Kushta Purification Mandate: Kushta Baiza Murgh and Kushta Marwareed must strictly undergo 7 ...
* Botanical Identity Verification: High-potency herbs (e.g. Asgandh, Guggul, Shilajit) must be ...
* Storage & Stability: Finished Safoofs must be packaged in food-grade, airtight amber glass ja...

2. THE SAFETY FIREWALL : CRITICAL HERB-DRUG INTERACTION PROTOCOLS

Guggul (Commiphora mukul)	**Interacts with: Anticoagulants / Warfarin**	**HIGH SEVERITY**
Additive antiplatelet effect; risk of prolonged bleeding time. Discontinue 7 days before planned ...		
Asgandh (Withania somnifera)	**Interacts with: Levothyroxine / Thyroid meds**	**MODERATE**
Direct stimulation of thyroid deiodinase enzymes; monitor serum Free T3/T4 closely to adjust thyr...		
Mulethi (Glycyrrhiza glabra)	**Interacts with: Antihypertensives / Diuretics**	**HIGH SEVERITY**
Glycyrrhizin inhibits 11-beta-HSD2, inducing pseudo-hyperaldosteronism & potassium loss. Contrain...		
Aqarqarha (Anacyclus pyrethrum)	**Interacts with: Hypertensive Emergencies**	**CONTRAINDICATED**
Potent vaso-stimulant. Strictly prohibited in patients with systolic BP > 160 mmHg or documented ...		
Piperine (Black Pepper)	**Interacts with: CYP3A4 Substrate Drugs**	**MODERATE**
Inhibits intestinal CYP3A4 & P-glycoprotein, significantly elevating blood levels of pharmaceutic...		

3. THE FORBIDDEN ADULTERANT LIST & CLINICAL DIRECTORATE ATTESTATION

ZERO TOLERANCE ADULTERANT DIRECTIVE:

1. Strictly ZERO synthetic PDE5 inhibitors (Sildenafil, Tadalafil, Vardenafil) adulteration in any male vigor formulations.
2. Strictly ZERO synthetic steroid hormones (DHEA, Pregnenolone, Methyltestosterone, Corticosteroids).
3. Strictly ZERO raw, uncalcined or unpurified metallic/mineral Kushtas (Mercury, Arsenic, Lead, Copper).
4. Strictly ZERO nephrotoxic aristolochic acid botanicals (Aristolochia species) or hepatotoxic compounds.

CLINICAL ATTESTATION & RATIFICATION:

I hereby certify and solemnly affirm that the formulations, compounding weights, posology regimens, and therapeutic cascades detailed across Protocols P-01 through P-21 in this compendium have been compiled in rigorous accordance with the classical canons of Unani Tibb (Kitab al-Kulliyat, Al-Qanun fi al-Tibb) and reconciled with modern molecular pharmacognosy, biomarker thresholds, and official Ayush / FSSAI safety directives. These protocols constitute the official clinical operating standard for all consultations conducted within Zayvora Matab OS.

DR. IRFAN ASHRAF, BUMS, MD (Unani)
